POLICE COURT,—There was a great failing off both in members and business in this court yesterday morning. Only one case was brought before his Honor, and that was one Henry Wesley, for forestalling the market. Henry attempted to play a pretty sharp game, but was caught and warned of the consequences. He persisted—"knew all about the law, &c." and came to grief to the tune of five dollars and costs. The little transaction was an expensive one, as it took all of two ten dollar greenbacks but ten cents to settle it. His purchase consisted of four-team watermellons.

The White Pine Compound.

"It was early in the spring of '52 that this compound was originated. A me., ber of my family was a flicied with an irrilation of the throat attended with a disagreeable cough. I had for some months previous thought that a preparation having for its basis the inside bark of white pine might be so compounded as to be very useful in obseases of the throat and lungs. To test the value of it in the case alludes to. I compounded a small quantity of the medicine that I had been planning, and gave it in teaspoonful doses. The result was exceedingly gratifying. Within two days the irritation of the throat was removed, the cough subsided and a speedy cure was effected. Soon after this, I sail some to a lasty in Londoniterry, N. H., who had been planning as lasty in Londoniterry, N. H., who had been mous streaked with blood. She soon found relief an sent for more. She took about the nonces of it, and got well. J. B. Clarke, Esq., ed tor of the Mannhester I ally Mirror, made a trial of the same preparation in the case of a severe cold and was cured immediately. He was so highly pleased with the results, and so confident of success attending its sales, if placed before the public, that he finally pursuaded me to give t a name, and send it abroad to benefit the undering. In November, 1855, I first advertised it under the name of white Pine Compound. In two years from that time there had been wholessaled in Manchester alone one hundred dollars worth, where it took the lead of all the cough repedies in the market, and it a succeeding the property of the property of the same preparation in the cough repedies in the market, and it as maintains that position. There is good reason in the line in the cough repedies in the market, and it accough repedies and the tasset and the

in its nature; is warming to the stomach and pleasant withal to the taste, and is exceedingly cheap.

"As a remedy for kidney complaints the White Pine Compound stands unrivaled. It was not originated for that purpose, but a person in using it for a cough was not only cared of the cough, but was also cured of a kidney difficulty of ten years standing. Since that accidental discovery many thomsands have used it for the same complaint, and have been completely cured."

The above was written by Dr. Poland, in 1860. Since then, as in Manchester, the White Cumpound has taken the lead of all Cough remedies, as well as a preparation for the cure of Kidney difficulties, in every city, town, vi lage and hamiet throughout the New England States.

The remiedy is as safe and pleasant to take as it is effectual.
